

Rush Couriers Driver wins National Award!!!

It is with immense pleasure (and pride) that we can announce that Paul Da Silva Driver C392 has won the award of Courier of the Year 2010 from the Institute of Couriers (IOC).

During a gala evening at the IOD at Pall Mall, which was attended by Transport Minister Norman Baker MP (pictured top right). Paul was presented with a trophy and certificate after being voted by the judging panel to be the Courier of the Year in the Van category.

The IOC is the main courier industry authority whose mission statement reads:-

"IOC seeks to encourage knowledge sharing and development of individuals own competence in the application of courier skills. It is the individuals with the appropriate knowledge, energy and skills that make the difference and can effect the provision of, delivery of and the standard of skills the industry shows to its clients. Individuals effect the change within an organisation.

IOC membership sends a clear message to employers, clients, and other stakeholders that you as a recognised member have committed to industry standards and quality of skills to benefit the service you provide. Alongside the IOC a recognised member sends a powerful message of delivery excellence.

The winning of this award is a major coup for Rush Couriers and is recognition of our position as one of London's leading specialist courier teams. Our fleet and staff work constantly to improve service and achieve your deadlines.

The IOC website is www.ioc.uk.com for anyone who wants to know more about them.

Rush Courier of the Month

Congratulations to:

Jackson C122 who our control team voted as their Courier of the Month for September. Please congratulate him when you see him and for his efforts, Jackson will receive **£50**.

Jackson normally only works 4 days a week, from Tuesday to Friday due to having a weekend job as a motorcycle training instructor. During September, however, Jackson made himself available 5 days a week and worked every working day of the month from early morning until late evening. This helped us through covering other rider holidays, London Fashion week and a general upturn in the volume work we delivered. He did this with a smile on his face and even managed not to get any complaints from customers about performing wheelies outside their offices.....

Did you know?

The wikipedia description of "courier" is

"A courier is a person or a company who delivers messages, packages, and mail. Couriers are distinguished from ordinary mail services by features such as speed, security, tracking, signature, specialization and individualization of services, and committed delivery times, which are optional for most everyday mail services. As a premium service, couriers are usually more expensive than usual mail services, and their use is typically restricted to packages where one or more of these features are considered important enough to warrant the cost."

Here is a list of services that we currently provide to customers, some of which you might not be aware that we cover:-
